# Corporate governance at Handelsbanken

Corporate governance in the Handelsbanken Group is aimed at creating a clear, fit-for-purpose organisational structure which ensures that operations can be carried out in a sound, effective manner and in accordance with external and internal rules, which facilitates the effective monitoring and management of the risks that arise. A clear allocation of responsibilities meets the Bank's needs as regards internal control, risk control and compliance, and is also key to enabling the operations to be followed up in the best possible manner, from a business perspective. Good governance must run through all operations, and it therefore affects all employees of the Handelsbanken Group.

At the heart of corporate governance are the goals and steering documents issued by the Board and the Chief Executive Officer (CEO). Handelsbanken's corporate culture, work method and remuneration system are also important for ensuring effective corporate governance, as is the ability to manage any risks that arise in the business operations.

Risk management is described in detail in a separate risk section in the annual report, note G2 on pages 110–149, in the Bank's Pillar 3 report, and also briefly in this Corporate Governance Report.

## THE BANK'S GOALS, MISSION AND CULTURE

Handelsbanken's goal is to have higher profitability than the average of peer competitors in its home markets. The Bank's profitability goal is intended to offer shareholders long-term, high growth in value, with increasing earnings per share over a business cycle. With stable finances, the Bank can also provide support to its customers whatever the prevailing business environment. High profitability and sound, sustainable business operations are critical to shareholders that have invested in the Bank. In addition, these go hand in hand with low funding costs, positive growth and the Bank being seen as an attractive employer. This goal is mainly to be achieved by the Bank having more satisfied customers and lower costs than its competitors.

Handelsbanken creates value through unique customer meetings. Through faith in the individual, a strong local commitment and a decentralised way of working, the Bank creates long-term customer relationships. By running the Bank in a responsible and sustainable manner and with stable finances, Handelsbanken earns confidence from customers, shareholders and

the wider world. Satisfied customers, income growing at a faster rate than expenses, and a low risk tolerance create sustainable profitability and the capacity to grow the Bank's business and customer offerings, regardless of the prevailing business and economic climate.

Handelsbanken always considers the situation of the individual customer, regardless of which customer segment the customer belongs to, which channel the customer chooses when dealing with the Bank, or which product the customer needs. Handelsbanken always strives for long-term customer profitability, and the customer's needs determine what business should be done with the customer, not the products that currently generate the highest profitability. The customer decides which distribution channel is best suited to the situation.

The overall customer responsibility always lies with the branch closest to the customer's geographical location.

Handelsbanken's decentralised approach means that each part of the business operations bears full responsibility for its business, based on the allocation of responsibilities and the directions established in the steering documents. The Bank's approach is characterised by trust and respect for customers and employees alike. Handelsbanken aims to develop the competency and skills of its employees and create the conditions to encourage long-term employment relations. All operations within the Group observe high ethical standards.

Handelsbanken's remuneration system is fit for purpose and consistent with the Bank's corporate goals and corporate culture.

## APPLICATION OF THE SWEDISH CORPORATE GOVERNANCE CODE

Handelsbanken applies the Swedish Corporate Governance Code with no deviations. The code is available on the Swedish Corporate Governance Board's website, bolagsstyrning.se.

#### **REGULATIONS**

The operations of Swedish banks are regulated by law, and banking operations may only be run with a licence from the Swedish Financial Supervisory Authority. The regulations for banking operations are extensive.

The most pertinent of these include:

- The Swedish Companies Act
- The Swedish Banking and Financing Business Act
- The Swedish Securities Market Act
- Regulation (EU) No 575/2013 of the European Parliament and of the Council

- The Swedish Credit Institutions and Securities Companies (Special Supervision) Act
- The Swedish Money Laundering and Terrorist Financing (Prevention) Act
- Extensive regulation of mutual fund and insurance operations

The Swedish Financial Supervisory Authority's regulations include regulations and general guidelines on governance, risk management and control in credit institutions and regulations regarding securities and insurance business.

A list of the central regulations is available on the Swedish Financial Supervisory Authority's website

Handelsbanken's main principle is that operations outside Sweden are subject both to Swedish regulations and to the host country's regulations, if these are stricter or require deviations from Swedish rules.

The Swedish Financial Supervisory Authority supervises the Bank's operations in Sweden and in all countries where the Bank runs branches, in other words, when the foreign operation is part of the Swedish legal entity Svenska Handelsbanken AB. The supervisory work is co-ordinated in a supervisory college for Handelsbanken, led by the Swedish Financial Supervisory Authority. Equivalent authorities in other countries exercise limited supervision over the branches' operations. They do, however, fully supervise the subsidiaries within the respective countries.

The Swedish Financial Supervisory Authority requires reporting on various matters such as the Bank's organisation, decision-making structure and internal control. The Swedish Financial Supervisory Authority's work also includes systematic on-site inspections of various parts of the Bank. The purpose of this is to follow up the Bank's actual compliance with the terms and conditions of granted licences and other detailed regulations.

# Corporate governance structure

#### Corporate governance at Handelsbanken - an overview

#### Corporate governance at Handelsbanken – an overview

The diagram provides a summary of corporate governance at Handelsbanken. The shareholders take decisions at the shareholders' meeting. For certain questions, the shareholders' decisions are prepared by the nomination committee. The shareholders appoint a board, which in turn appoints a CEO to manage the day-to-day operations. The Board (referred to within Handelsbanken as the Central Board) organises within itself various committees. The CEO was supported in governing the Bank during 2022 by the executive management. The current executive management is described on page 91. Within the Bank, there are also business-operating and business support units that report directly to the CEO. In addition, the shareholders exercise control through auditors appointed by the AGM.

## 1. SHAREHOLDERS AND SHAREHOLDERS' MEETINGS

Shareholders exercise their right to decide on matters concerning Handelsbanken at shareholders' meetings, which are the Bank's highest decision-making body. Every year, an annual general meeting (AGM) is held, which among other things appoints the Board, the Chairman of the Board and auditors.

#### 2. NOMINATION COMMITTEE

The nomination committee's task is to prepare and submit proposals to the AGM regarding the appointment of the Chairman and other members of the Board and fees to the Chairman and other members of the Board. As prescribed by the Swedish Corporate Governance Code, the nomination committee also submits proposals regarding the appointment of auditors and fees to the

auditors. The AGM decides how the nomination committee will be appointed.

#### 3. EXTERNAL AUDITORS

The auditors are appointed by the AGM for the period until the end of the following year's AGM. The auditors are accountable to the shareholders. They carry out an audit and submit an audit report covering matters such as the annual report, including this Corporate Governance Report, and the administration of the Board and the CEO. In addition, the auditors report orally and in writing to the Board's audit committee concerning how their audit was conducted and their assessment of the Bank's administrative order and internal control. The auditors also submit a summary report of their audit to the Board as a whole.

#### 4. THE BOARD

The Board is responsible for the Bank's organisation and manages the Bank's affairs on behalf of its shareholders. The Board must continuously assess the Bank's financial situation and ensure that the Bank is organised in such a way that the accounting records, management of funds and other aspects of the Bank's financial circumstances are satisfactorily controlled. The Board establishes policies and instructions on how this is to be executed, and establishes rules of procedure for the Board and also an instruction for the CEO.

These central steering documents state how responsibility and authority are allocated among the Board as a whole, the committees, the Chairman of the Board and the CEO. The appointments made by the Board include the CEO, Executive Vice Presidents, the Chief Risk Officer, the Chief Compliance Officer and Chief Audit Executive, and the Board also

stipulates the employment terms for these persons. The Chairman is responsible for evaluating the Board's work and informs the nomination committee of the results of this evaluation.

#### 5. CREDIT COMMITTEE

The Board has set up a credit committee which decides on credit cases where the amount exceeds the decision limit that the Board has delegated to another unit. However, cases of special importance and credits to Board members and certain persons in managerial positions are decided upon by the Board as a whole.

#### 6. AUDIT COMMITTEE

The Board's audit committee monitors the Bank's financial reporting by examining important accounting matters and other factors that may affect the qualitative content of the financial reports. The committee also monitors the effectiveness of the Bank's and Group's internal control, internal audit and risk management with regard to financial reporting, as well as the external auditors' impartiality and independence. As prescribed by the Swedish Corporate Governance Code, the committee also evaluates the audit activities and submits a recommendation to the nomination committee in the matter of the appointment of auditors. The committee also receives reports from the Bank's internal and external auditors.

#### 7. RISK COMMITTEE

The Board's risk committee monitors the effectiveness of the Handelsbanken Group's risk control and risk management. The committee prepares decisions regarding the Bank's risk strategy, risk tolerance, etc., and examines reports from Group Compliance and Group Risk Control. The committee also makes decisions independently, including decisions on the significant parts of the Bank's risk classification and estimation processes linked to the IRB approach.

#### 8. REMUNERATION COMMITTEE

The Board's remuneration committee evaluates the employment conditions for the Bank's executive officers in the light of prevailing market terms. The committee's tasks also include preparing the Board's proposals to the AGM concerning guidelines for remuneration to executive officers, monitoring and evaluating the application of these guidelines, and preparing the Board's decisions on remuneration and other terms of employment for exec-

utive officers, as well as for the Chief Audit Executive. The committee also makes an assessment of Handelsbanken's remuneration policy and remuneration system.

#### 9. UK COMMITTEE

The Board's UK committee facilitates the structured, continuous follow-up of the operations in Handelsbanken plc. Members of the Board and selected members of executive management participate in this committee.

#### 10. GROUP AUDIT

Group Audit (internal audit) performs an independent, impartial audit of the operations and financial reporting of the Group. A key task for Group Audit is to assess and verify processes for risk management, internal control and corporate governance. The Chief Audit Executive is appointed by the Board and reports regularly to the audit committee, orally and in writing, and also submits an annual summary report to the whole Board.

#### 11. CHIEF EXECUTIVE OFFICER

The CEO is appointed by the Board to lead Handelsbanken's day-to-day operations. In addition to instructions from the Board, the CEO is obliged to comply with the provisions of the Swedish Companies Act and a number of other statutes concerning, among other things, the Bank's accounting, management of funds and operational control.

#### 12. GROUP COMPLIANCE

Group Compliance is responsible for monitoring and checking compliance, providing advice and support on measures to be taken by the business in order to ensure compliance, and for the reporting of material deficiencies and risks. The Chief Compliance Officer reports directly to the CEO and is the Head of Group Compliance. Group Compliance is independent and organisationally separated from the functions and areas to be monitored and controlled. The Chief Compliance Officer reports regularly to the CEO on matters regarding compliance, as well as quarterly to the risk committee and the Board.

#### 13. GROUP RISK CONTROL

Group Risk Control has the responsibility for risk control in the Group and is responsible for monitoring and reporting all the Group's material risks at an aggregate level. This responsibility comprises credit and market risks (interest rate, exchange rate, equity price and commodity price risk), operational risk and

liquidity risks, as well as risks associated with the Group's remuneration system. The Chief Risk Officer reports directly to the CEO, acts independently, and is separate from the operations under review. The Chief Risk Officer reports continually to the CEO and on a regular basis to the risk committee and the Board.

#### 14. BUSINESS-OPERATING UNITS

Handelsbanken operates in several countries. Each country has a Country General Manager, who has the overall responsibility for the Bank's business operations in the country in question. This responsibility includes a distribution responsibility for products and services, as well as a customer responsibility.

#### 15. BUSINESS SUPPORT UNITS

Handelsbanken has a number of business support units with Group-wide responsibility.

#### **PRODUCT**

Product managers constitute central business support for a given product area. Product responsibility includes, according to a Groupwide approval process, developing, managing and phasing out products and services, as well as co-ordinating and supporting the distribution of the products and services.

#### FUNCTION

Function managers have Group-wide responsibility for a given area. Function responsibility includes ensuring that work within the area functions well and is run in accordance with internal and external rules and regulations. The responsibility also includes providing guidance and support relating to the area.

## SHAREHOLDERS AND SHAREHOLDERS' MEETINGS

#### Shareholder rights

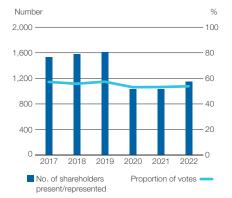

At the end of 2022, Handelsbanken had just over 161,000 shareholders. Shareholders' right to decide on matters concerning the company's affairs are exercised at regular shareholders' meetings, the annual general meeting and extraordinary general meetings. Handelsbanken has two classes of shares: class A and class B. Class A shares are by far the most common and represented more than 98 per cent of all outstanding shares at the end of 2022. Class A shares and class B shares entitle holders to the same proportion of the profit. Each class A share entitles the holder to one vote, while each class B share entitles the holder to one-tenth of a vote. Handelsbanken's Articles of Association state that at shareholders' meetings, no shareholder is allowed to exercise voting rights representing more than ten per cent of the total number of votes in the Bank.

A shareholder wishing to have a matter considered by the AGM must submit a written request to the Board, in time for the matter to be included in the notice of the meeting. The Bank's website, handelsbanken.com, contains information as to when this request must have reached the Board.

At the AGM, the Bank's shareholders make various decisions of major importance to the Bank's governance. Shareholders' decisions include:

- adopting the income statement and balance sheet
- appropriation of profits
- discharge from liability for the Board and the CEO for the past financial year
- how many members should be on the Board of the Bank, who these members should be, and who should be the Bank's auditors
- determining fees to Board members and auditors
- principles for remuneration to executive officers

#### Attendance at AGMs 2017–2022

The shareholders at a shareholders' meeting can also make decisions on the Bank's Articles of Association. The Articles of Association constitute the fundamental governing document for the Bank. They specify which operations the Bank is to conduct, the limits on the amount of share capital, the right of shareholders to participate at shareholders' meetings and the items to be presented at the AGM. The Articles of Association also state that the number of board members must be at least eight and at most 15. They are elected for one year at a time. Handelsbanken's Articles of Association contain no stipulation regarding the appointment and discharging of board members nor concerning amendments to the Articles of Association.

Information in preparation for meetings is published at handelsbanken.com. Minutes of previous meetings are also available in both Swedish and English.

#### Major shareholders

At the end of 2022, the holdings of one shareholder represented more than ten per cent of the votes: AB Industrivärden, with 11.4 per cent. Detailed information on the Bank's largest Swedish shareholders can be found on page 35.

#### Annual General Meeting 2022

The Annual General Meeting took place on 23 March 2022.

1,145 shareholders were represented at the meeting via postal voting. They represented approximately 52.6 per cent of all votes in the Bank, on par with the figure for the 2021 AGM. Due to the prevailing circumstances related to Covid-19, just two members of the Board were present. The chairman of the meeting was lawyer Sven Unger.

The decisions made by the shareholders at the meeting included:

- A dividend of SEK 5.00 per share, with the remaining amount at the disposal of the meeting to be carried forward.
- Authorisation for the Board to decide on acquisition of not more than 120 million shares in the Bank, as well as divestment of shares.
- The Board is to consist of ten members, excluding deputy members.
- The re-election of nine Board members and the election of one new Board member, Hélène Barnekow, for the period until the conclusion of the next AGM.
- The election of Pär Boman as Chairman of the Board.
- Fees to be paid to the Board members: SEK 3,640,000 to the Chairman of the Board, SEK 1,040,000 to the Deputy Chair, and SEK 745,000 to the other Board members.
   Fees to be paid for committee work to each

member of the respective committee: SEK 440,000 for the credit committee, SEK 440,000 for the UK committee, SEK 140,000 for the remuneration committee, SEK 440,000 for the risk committee and SEK 440,000 for the audit committee. It was decided that the fee to the chairperson of the risk committee would be SEK 545,000, the fee to the chairpersons of the credit committee and the UK committee would be SEK 495,000, and that the fee to the chairperson of the audit committee would be SEK 545,000. Board members who are employees of Handelsbanken shall not receive a fee.

The AGM appointed PricewaterhouseCoopers AB (re-election) and Ernst & Young AB (re-election) to serve as auditors until the end of the AGM to be held in 2023.

The shareholders at the meeting also adopted guidelines for remuneration and other terms of employment for executive officers, as proposed by the Board, which are presented on page 86.

#### **Auditors**

Johan Rippe has been an authorised public accountant since 1999 and is auditor-in-charge for PricewaterhouseCoopers AB at Handels-banken. Mr Rippe is also an auditor for Stena and Axel Johnson, among others. He is also a member of the Board for Pricewaterhouse-Coopers AB's Swedish operations. Mr Rippe was born in 1968.

Äsa Lundvall has been an authorised public accountant since 2002. She is auditor-in-charge for Ernst & Young AB at Handelsbanken. She is also an auditor for Dustin, Rejlers and Storskogen, among others. Ms Lundvall was born in 1970.

#### NOMINATION COMMITTEE

The shareholders at the 2022 AGM resolved to establish an instruction for how the nomination committee is to be appointed. According to the decision, the instruction will apply until it is amended by a future AGM. The instruction states that the nomination committee shall comprise five members: the Chairman of the Board and one representative from each of the Bank's four largest shareholders on 31 August the year before the AGM is held.

However, the nomination committee must not include representatives of companies which are significant competitors of the Bank in any of its main areas of operations. It is the Chairman of the Board's task to contact the largest owners, so that they will appoint one representative each to sit on the nomination committee, together with the Chairman. The 2023 nomination committee comprises:

| Representative               | Shareholders       | Voting power<br>as a %,<br>31 August 2022 |

Information on the composition of the nomination committee has been available at handels-banken.com since 22 September 2022.

The nomination committee's task in preparation for the AGM on 22 March 2023 is to submit proposals for the election of a chairman of the AGM, the Chairman of the Board and other members of the Board, the fees to the Chairman and other members of the Board, and remuneration for committee work. In addition, the Handelsbanken Board has decided that proposals regarding the election of and fees to auditors be made by the nomination committee.

In its work, the nomination committee takes into account the Board's diversity policy. The policy stipulates that to promote independent opinions and critical questioning, it is desirable that the Board should be characterised by

appropriate diversity in terms of, for example, age, gender, geographical origin, and educational and professional background. When formulating its proposal to the annual general meeting, the nomination committee considers relevant parts of the Board's policy regarding the suitability assessment of Board members and the Chief Executive Officer. In compiling the proposal, the nomination committee also considers the evaluation of the Board carried out by the Chairman of the Board.

#### THE BOARD

After the shareholders at the 2022 AGM had appointed Pär Boman to be Chairman of the Board, Fredrik Lundberg was appointed as Deputy Chair at the first Board meeting immediately after the AGM. At the same time, the Board appointed members of the credit committee, audit committee, risk committee, remuneration committee and UK committee. Information about the Board is shown on pages 88–90.

#### Composition of the Board

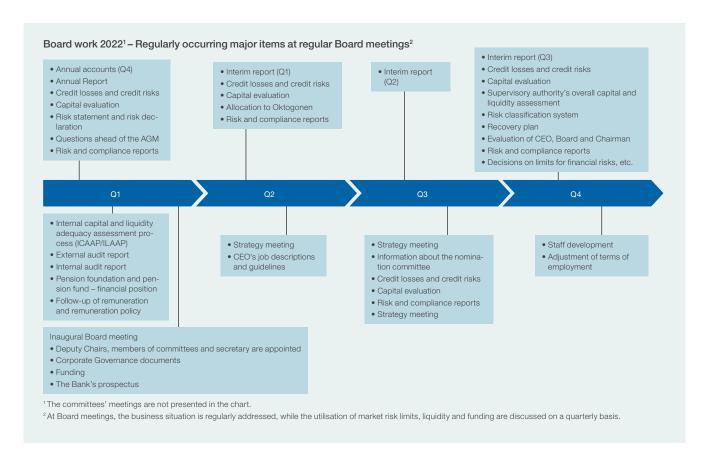

Since the 2022 AGM, the Board has been composed of ten elected members. When the Board is to be elected, the nomination committee pro-

poses members. Starting from the date of the 2020 AGM, the Board has also included two members and two deputy members who are employee representatives, in accordance with applicable legislation.

The Board members have broad and extensive experience from the business community. Several are, or have been, chief executive officers of major companies, and most of them are also board members of major companies. Several members have worked on the Bank's Board for a long time and are very familiar with the Bank's operations. The nomination committee's proposals at previous AGMs, including their reasons, are available at handelsbanken.com.

Suitability assessments of individual Board members are undertaken, and of the Board as a whole. The suitability assessment of the Board is carried out at least annually, as well as prior to changes in the composition of the Board, or when it is otherwise deemed necessary. This ensures that the Board has the knowledge, skills and experience required to fulfil its duties, which include establishing strategies and risk tolerances, understanding and challenging decisions and proposals by executive management on the basis of their consequences.

The proportion of women on the Board of the Bank since the 2022 AGM is 50 per cent of the

elected members, and the proportion with a different geographical origin than the country where Handelsbanken is domiciled is 20 per cent.

#### Independence of Board members

The Swedish Corporate Governance Code stipulates that the majority of Board members elected by the AGM must be independent of the Bank and the Bank's management, and that at least two of the independent Board members must also be independent of those of the company's shareholders that control ten per cent or more of the shares and votes in the Bank. The composition of the Board fulfils the Code's requirements for independence.

#### Regulations governing the Board's work

The fundamental rules regarding the distribution of tasks among the Board, the Board committees, the Chairman, the CEO and Group Audit are in accordance with the Swedish Companies Act and the Swedish Corporate Governance Code, and are expressed in the Board's rules of procedure, as well as in its instructions to the CEO and to the Chief Audit Executive.

#### Chairman of the Board

The Board's rules of procedure state that the Chairman shall ensure that the Board carries out its work efficiently and that it fulfils its duties. This involves organising and managing the Board's work and creating the best possible conditions for this work. The Chairman must also ensure that the Board members continually update and expand their knowledge of the Bank's operations, and that new members receive appropriate introduction and training. The Chairman must be available to the CEO as an advisor and discussion partner, but must also prepare the Board's evaluation of the CEO's work.

The Chairman's duties include being chairman of the credit committee, remuneration committee and UK committee, as well as being a member of the audit and risk committees. The Chairman is responsible for ensuring that the Board's work is evaluated annually. The 2022 Board evaluation was performed by means of a survey and through discussions between the Chairman and each member. The Chairman informed the Board of the outcome of the evaluation and led a Board discussion on this. The Chairman also informed the nomination committee about the Board evaluation. The board evalutation has not led to any other specific measures. The Chairman is responsible for maintaining contact with the major shareholders concerning ownership matters.

There is no other regular division of work for the Board except as concerns the committees.

#### The Board's work in 2022

During the year, the Board had 15 meetings, including two extended strategy meetings.

The figure on page 79 gives an overview of the Board's work in 2022, including regularly occurring major items at ordinary Board meetings. Moreover, during the year the Board has received reports on the Bank's work relating to money laundering and information security, as well as on the Bank's overall sustainability work, including climate risks and performance in terms of the adopted sustainability goals. In addition, matters discussed at remuneration, risk and audit committee meetings are reported at the next Board meeting.

## Committee work Credit committee

The credit committee consisted of the Chairman of the Board (Pär Boman, who also chairs the credit committee), the Deputy Chair (Fredrik Lundberg), the CEO (Carina Åkerström), the Chief Credit Officer (Robert Radway, as of 16 February 2022), and five Board members appointed by the Board (Jon Fredrik Baksaas, Stina Bergfors, Hans Biörck, Ulf Riese and Arja Taaveniku).

The credit committee normally holds one meeting every month to take decisions on credit cases that exceed a set limit and that are not decided on by the whole Board due to the importance of these cases or legal requirements. The Country General Managers and County Managers, and the Head of Handelsbanken Global Banking presented cases to the credit committee from their own units in 2022 and participated when other cases were presented, with the objective of providing them with a good picture of the Board's approach to risk. Credit cases that are decided upon by the whole Board are presented by the Chief Credit Officer. If a delay in the credit decision would inconvenience the Bank or the borrower, the credit instructions allow the CEO and the Chief Credit Officer to decide on credit cases during the interval between credit committee meetings.

In 2022, the credit committee had 11 meetings.

#### Audit committee

The audit committee comprised the Chairman of the Board (Pär Boman) and three Board members appointed by the Board (Jon Fredrik Baksaas, Hans Biörck and Ulf Riese). The latter members are independent of major shareholders, and of the Bank and its management. Jon Fredrik Baksaas was appointed to chair the committee.

In 2022, the audit committee had seven meetings.

#### Risk committee

The risk committee comprised the Chairman of the Board (Pär Boman) and three Board members appointed by the Board (Ulf Riese, Kerstin Hessius and Hans Biörck). The latter members are independent of major shareholders, and of the Bank and its management. Kerstin Hessius was appointed to chair the committee.

In 2022, the risk committee had nine meetings.

#### Remuneration committee

The remuneration committee comprised the Chairman of the Board (Pär Boman, who also chairs the committee) and two Board members appointed by the Board (Jon Fredrik Baksaas and Hans Biörck). The latter two are independent of the Bank, its management, and major shareholders.

In 2022, the remuneration committee had eight meetings.

#### UK committee

The UK committee comprised the Chairman of the Board, (Pär Boman, also chair of the committee), the CEO (Carina Åkerström), the Chief Financial Officer, CFO (Carl Cederschiöld) and a member appointed by the Board (Ulf Riese).

In 2022, the UK committee had five meetings.

#### THE BANK'S MANAGEMENT Chief Executive Officer

Carina Åkerström has been President and Chief Executive Officer since March 2019. She was born in 1962, is a Master of Laws, and has worked at Handelsbanken since 1986. In 2008. Carina Åkerström became a member of the executive management as Executive Vice President and Head of Regional Bank Eastern Sweden. In 2010, she was appointed Head of Regional Bank Stockholm. Carina Åkerström was appointed Deputy President in 2016, while retaining her position as Head of Regional Bank Stockholm. With the exception of her positions as Chairman of the Swedish Bankers' Association (entailing an assignment as board member in the European Banking Federation), and board member in World Childhood Foundation, Carina Åkerström has no significant assignments outside Handelsbanken. Her shareholdings in the Bank and those of close relatives are 48,400 shares, as well as 33,348 shares held indirectly via the Oktogonen profit-sharing scheme. Neither the CEO nor her close relatives has any material shareholdings or other ownership interests in companies with which the Bank has significant business relations.

#### Executive management

In 2022, Handelsbanken's executive management consisted of the Chief Executive Officer

In addition, the committee has addressed several cases involving the appointment of senior managers.                                                                                                                                                                                                                                                                                 |

together with the Chief Financial Officer, Chief Information Officer, Chief Credit Officer, Chief Human Resources Officer, Chief Communications Officer, Head of Capital Markets, Chief Sustainability and Climate Officer, Chief Strategy Officer, Head of Group Products and Offerings and Chief Risk Officer, as well as the Country General Manager of Sweden, the Country General Manager of Norway and the Chief Executive

Officer of Handelsbanken plc. The Chief Legal Officer and Chief Compliance Officer are co-opted to executive management, as is the Executive Vice President responsible for the divestment of the Bank's operations in Denmark and Finland. The current executive management is described on page 91. Executive management is a forum for addressing Group-wide issues and other matters of significance from a

Group perspective. Before decisions are made on such matters by the CEO or other officers, these are, as a general rule, discussed by executive management.

#### Decision-making process

As a general rule, responsibilities and powers of authority at Handelsbanken under the CEO have been assigned to individual members of

staff, rather than groups or committees. However, collective decisions are made, in the form of credit decisions made in credit committees and the national boards. It is required that the members are unanimous regarding these decisions.

#### The Risk and Compliance Committee

The Risk and Compliance Committee¹ has been set up by the CEO for follow-up of risk management within several areas and for in-depth discussions regarding the Bank's overall risk situation prior to such matters being addressed by the risk committee and the Board. As well as the Chief Executive Officer, the Risk and Compliance Committee includes the Chief Financial Officer, Chief Risk Officer, Chief Compliance Officer, Chief Strategy Officer, Chief Credit Officer, Chief Information Officer, Head of Financial Crime Prevention, Head of Group Capital Markets, Head of Group Products and Offerings and Chief Legal Officer.

#### Operational structure

Handelsbanken's overall organisational structure follows a geographical governance model. The Bank has long employed decentralised working methods, with important business decisions made locally close to the customer.

Customer responsibility is geographical, meaning that all of the Group's customers are affiliated with a physical branch, regardless of which products or services the customer needs, or which channels the customer chooses.

The Handelsbanken Group's home markets are Sweden, Norway, the UK and the Netherlands, but the Group also has business operations in other markets. Outside Sweden, operations are mainly run via international branches, except in the UK, where the Bank has a subsidiary for its British operations. The operations in each country are led by a Country General Manager

In 2021, the decision was made to initiate a process to divest the operations in Denmark and Finland. The Bank announced in June 2022 the sale of its Danish operations to Jyske Bank A/S. The transfer was finalised during the fourth quarter.

# FRAMEWORK FOR CONTROL Organisational requirements on the operations

Responsibility for ensuring that the appropriate procedures, systems and processes are in place such that the operations can be run in accordance with external and internal rules regarding internal control, risk control and regulatory compliance in each respective unit has

1 Up until 3 July 2022, the matters were dealt with in the former Risk Forum.

been delegated by the CEO to managers who report directly to the CEO. In turn, these managers may delegate operational responsibility for meeting these requirements to managers who report to them. Among other things, this responsibility means that fit-for-purpose instructions and procedures for the operation must be in place, and compliance with these procedures must be monitored regularly. Thus, internal control, risk control and compliance are integral parts of managers' responsibility at all levels in the Bank.

Handelsbanken has three lines of defence for risk management, follow-up and internal control of the Bank's risks: The business operations and the units that support the business operations constitute the first line of defence, with responsibility for managing and restricting the risks facing the business in accordance with external and internal rules. The control functions Group Risk Control and Group Compliance comprise the second line of defence, and monitor and control the Group's risks, the work of the business operations, and compliance with applicable rules and regulations. The third line of defence is Group Audit, which examines all of the Bank's operations, including risk management, the work of the control functions and corporate governance.

#### **Group Compliance**

Group Compliance is an independent control function that identifies, measures, analyses and reports on compliance risks within the Group. This also includes checking and assessing the suitability and effectiveness of the procedures in place and actions taken to minimise the risk of non-compliance with applicable rules. Another important duty is to provide advice and support about compliance to employees, the CEO and Board, and continually inform the units concerned about the risks which may arise in the operations due to inadequate compliance. Group Compliance also monitors the risk level relative to the risk tolerance defined by the Board, and is responsible for the Group's contacts with public authorities regarding supervision of the Group's licensed operations.

The function also includes specifically defined roles such as the Appointed Officer according to the applicable money laundering and terrorist financing regulations, and the Data Protection Officer (DPO) according to the applicable regulations on data protection and personal data processing.

The Chief Compliance Officer is appointed by the Board and reports directly and regularly to the CEO on matters regarding compliance in the Group, as well as quarterly to the risk committee and the Board.

#### Group Risk Control

Group Risk Control is an independent control function that identifies, measures, analyses and reports all the Group's material risks. This includes monitoring and checking the Group's risk management and assessing that Handelsbanken's risk management framework is fit-forpurpose and efficient. Group Risk Control also checks that the risks and risk management comply with the Bank's risk strategy, and fall within the risk tolerance thresholds established by the Board.

The Chief Risk Officer is appointed by the Board and reports directly and regularly to the CEO. The Chief Risk Officer also reports regularly to the Board's risk committee, and quarterly to the Board as a whole.

A more detailed description of the Bank's risk management and control is contained in note G2 on pages 110–149, and also in the Bank's Pillar 3 Report.

#### **Group Audit**

Group Audit is the Board's controlling body. The Chief Audit Executive is appointed by and reports to the Board.

Group Audit is tasked with performing an independent, impartial audit of the operations and financial reporting of the Group. This includes assessing and verifying processes for risk management, internal control and corporate governance. Their assignment is based on a policy established by the Board and is performed on the basis of a risk-based methodology in accordance with internationally accepted standards issued by the Institute of Internal Auditors (IIA). The planned auditing activities are documented every year in an audit plan which is established by the Board. Group Audit's conclusions, the actions to be taken and their status are reported regularly to the audit committee and every year to the Board as a whole. The Chief Audit Executive is also a recipient of reports made via Handelsbanken's separate system for whistleblowing.

Group Audit is regularly subject to independent external quality reviews. In addition, the Bank's external auditors perform an annual quality review of the work of Group Audit.

#### POLICY DOCUMENTS

The following is a brief summary of a selection of the policy documents which the Board of Handelsbanken has established and which apply at the time this annual report is published.

## Policy on governance and steering documents

The purpose of the policy is to clarify the basic foundations of the Handelsbanken Group's

corporate governance. The policy addresses the overall organisational structure, illustrating its goals and corporate culture, as well as the steering documents and forms of responsibility that constitute the basis for governance within the Group. The policy also illustrates the basic foundations for risk management and the follow-up of risks.

#### Credit policy

The credit policy describes the Bank's risk tolerance and risk strategy for credit risk, as well as how such risks are to be followed up. Handelsbanken has a low tolerance of credit risks and strives to maintain its historically low level of credit losses compared to other banks.

#### Policy for risk control

The policy for risk control presents basic principles for the Bank's independent risk control function. The risk control function must verify that all material risks to which the Group is exposed, or may be exposed in the future, are identified and managed by the relevant functions, and must also supervise and monitor the Group's risk management. In addition, the function must identify risks arising as a result of deficiencies in the Group's risk management. The risk control function must also verify that every business unit monitors all its material risks in an efficient manner.

#### Policy for operational risk

The policy for operational risk describes the Bank's tolerance of operational risks and provides comprehensive guidance on the management of such risks. Operational risk refers to the risk of loss due to inadequate or failed internal processes, human error, erroneous systems or external events. Legal risks, as well as IT risks and information security risks, are also included. Handelsbanken has a low tolerance of operational risks and, as far as possible, must endeavour to prevent these risks and to reduce the losses in this area.

#### Capital policy

The purpose of the capital policy is to ensure that the Group's supply of capital is satisfactory. The Group must at all times be well capitalised in relation to risk, and fulfil the goals established by the Board and the capital adequacy requirements established by supervisory authorities, even in situations of financial stress (see the section on risk in note G2 on pages 110–149). Handelsbanken's capital situation must also justify a continued high rating from the most important rating agencies.

#### Financial policy

Through this policy, the Board establishes the framework for financial operations in Handelsbanken. This includes the general establishment of measurement methods for financial risks. 'Financial risks' here refers to market risks and liquidity risks. Market risks are in turn divided into interest rate risks, equity price risks, foreign exchange risks and commodity price risks.

Financial risks shall only occur as a natural part of customer business, in connection with Handelsbanken's funding and liquidity management, and in its role as a market maker. The purpose of the Group's funding and liquidity management is to ensure that Handelsbanken is able to meet its payment obligations in the short and long term. The Group's funding must be well diversified in terms of markets, currencies and maturities. Handelsbanken must have an adequate liquidity reserve to be able to continue its operations for predetermined periods of time, without new funding in the financial markets. This requirement must also be fulfilled in times of financial strain.

#### Communication policy

The policy states that Handelsbanken's communication must be correct, factual, clear and comprehensible, and be characterised by transparency, accessibility and speed. It must also contribute to strengthening Handelsbanken's brand and the trust of its customers, other market actors and society in general. External communication to the financial markets and other external recipients must be relevant, reliable, correct, clear, up to date and otherwise in line with the rules of the stock exchange and other applicable regulations. Information is to be made public as soon as possible and simultaneously to the stock market, investors, analysts, news services and other media. At press conferences and the like, the media and analysts should normally be given the opportunity to obtain information at the same time.

#### Policy for sustainability

The policy establishes the strategy for Handelsbanken's sustainability work with regard to the Bank's relationships with customers, actions as an employer and social actor, and relationships with owners and investors. The Bank aims to integrate financial, social and environmental sustainability into all its operations, which means that the Group is to run financially sound, sustainable operations. This entails safeguarding human rights and employees' rights, and not being complicit in breaches of these. Gender equality, diversity and an inclusive corporate culture should be a part of Handelsbanken's fundamental values. Handelsbanken endeav-

ours to minimise negative impact on the environment, and to increase positive impact. In its operations and in accordance with the Group's sustainability goals, the Bank shall actively push for a greenhouse gas-neutral economy, in line with the Paris Agreement and the 1.5°C target. Handelsbanken does not accept corruption, money laundering or terrorist financing, and conflicts of interest must be managed.

The policy is available at handelsbanken.com.

#### Policy for ethical standards

The policy stipulates that employees of Handelsbanken must conduct themselves in a manner that upholds confidence in Handelsbanken. All operations in the Group must be characterised by high ethical standards. Financial advice must be based on the customer's requirements. In case of doubt as to what is ethically acceptable, the matter must be discussed with the employee's immediate superior. There must be no discrimination on grounds such as gender, religion, ethnic background or any other basis. The policy on ethical standards also describes how employees who suspect fraud or other irregularities should act. As a supplement to the paths for reporting provided by the Compliance and Group Audit functions, Handelsbanken also has an established whistleblower system, through which reports may be submitted anonvmously.

The policy is available at handelsbanken.com.

## Policy for management of conflicts of interest

The policy aims to ensure that conflicts of interest are managed correctly at the Bank. Conflicts of interest are a natural part of a business operation, which means that these types of conflicts may arise within the Group's operations. It is the responsibility of all heads of units to continuously identify potential conflicts of interest in their operations. If a conflict of interest relative to a customer is identified, the first priority is for the manager responsible to ensure that the customer's interests are not adversely affected. If this is not possible, the customer must be informed of the conflict of interest.

The policy is available at handelsbanken.com.

#### Policy against corruption

The policy against corruption establishes the importance of preventing and never accepting corruption, and of always taking action where there is suspicion of corruption. Corruption encompasses actions such as the giving and taking of bribes, breach of trust, and abusing one's position to achieve an improper advantage for personal gain or another person's benefit.

Employees of the Group must carry out their responsibilities in all their activities at the Group and their external assignments in a manner that upholds confidence in Handelsbanken. They must not, therefore, participate in actions that may involve bribery or any other improper influence. The same applies to all representatives of Handelsbanken.

#### Policy for remuneration

The policy stipulates that Handelsbanken's remuneration system must be fit-for-purpose and consistent with the Bank's business objectives and business culture, which are based on sound, sustainable operations, in which employees observe high ethical standards, and good administrative order and regulatory compliance. Remuneration must also be structured in a manner that promotes a healthy and efficient management of sustainability risks. Handelsbanken takes a long-term view of its staff's employment. Remuneration must be on market terms, enabling Handelsbanken to attract, recruit, retain and develop skilled staff, and ensuring good management succession, thus contributing to the achievement of the Handelsbanken Group's corpo-

Handelsbanken has a low risk tolerance in general. This is reflected in the company's view of remuneration. Handelsbanken considers that fixed remuneration contributes to healthy operations. This is therefore the main principle. Fixed remuneration is comprised primarily of a basic salary, customary employee benefits and pension.

Provisions for the Oktogonen collective profit-sharing scheme are classified as variable remuneration. Provisions are based on profitability metrics linked to Handelsbanken's corporate goals being met and the Board's overall assessment regarding the Bank's performance.

Performance-based variable remuneration must be applied with great caution and is not offered to employees who, in their professional roles, can have a material impact on the Bank's risk profile.

In certain countries, Handelsbanken is party to collective bargaining agreements on general terms and conditions of employment and conditions for pensions. This policy does not affect rights and obligations under collective bargaining agreements; nor does it affect obligations under applicable contract law or labour law.

Group HR is responsible for verifying that remuneration in Handelsbanken is compliant with external and internal rules. The independent control functions monitor and analyse the remuneration system and report material risks

and flaws to the Board's remuneration and risk committees.

A more detailed description of Handelsbanken's remuneration principles is shown on pages 85–86 and details about remuneration are shown in note G8 on pages 152–157.

#### Policies for suitability assessment

These two policies (one for Board members and the CEO, one for other officers) include general criteria for the suitability assessments required in advance of the appointment of members to Boards, as well as appointments to the positions of CEO, Executive Vice President, Chief Financial Officer, other positions in executive management, Country General Managers, heads of control functions and other executive officers at the Bank and the Bank's subsidiaries.

#### Policy for Group Audit

The policy stipulates that Group Audit must evaluate the efficiency and appropriateness of the Group's processes for risk management, internal governance and control. The Audit function must impartially and independently examine the Group's operations, accounts and governance process, ensure that material risks are identified and managed in a satisfactory manner, and ensure that material financial information is reliable, correct and delivered on time.

## Policy for managing and reporting events of material significance

According to the policy, events of material significance must be reported to the Swedish Financial Supervisory Authority. This refers to events that may jeopardise the stability of the Bank or a subsidiary, or the protection of customers' assets.

#### Policy for the use of external auditors

The policy establishes that engaging the Bank's elected auditors for services other than auditing should be avoided when this can be done without inconvenience. A decision on this must be made by the Chief Audit Executive or, in the case of more extensive assignments, by the Board's audit committee. The policy is adopted by the Board's audit committee on behalf of the Board.

#### Policy for compliance

The policy establishes the principles for compliance applicable in the Group, and describes the duties of Group Compliance. Compliance refers to the observation of and compliance with external and internal rules and regulations, accepted market practice and standards that are together applicable to the Bank's licensed operations. Handelsbanken has a low tolerance

of compliance risks. Group Compliance is to adopt a risk-based way of working to support and verify regulatory compliance and analyse deficiencies and risks relating to compliance.

#### Policy for complaints management

The policy states that all customer complaints must be dealt with promptly, while considering all rules relevant to the subject of the complaint. Complaints must be taken very seriously and regarded as an opportunity to correct a mistake or misunderstanding. The aim of the Bank's complaints management is that the person making the complaint must be very satisfied with the Bank's handling of it.

#### Policy for employees' transactions in financial instruments in the Handelsbanken Group

This policy serves as guidance for transactions in financial instruments executed by employees and contractors (other than Board members) in the Handelsbanken Group. The policy applies regardless of whether the transactions are undertaken for the individual's own account, or that of a closely related person, a customer or for the Bank. Any person who is covered by this policy is prohibited from carrying out transactions in financial instruments – or causing any other person, through advice or request, to carry out such transactions – that involve market abuse, or misuse or improper disclosure of confidential information.

#### Accounting policy

The accounting policy is applied by Handelsbanken's accounting function. The policy states that the consolidated accounts are to be prepared in accordance with IFRS, as adopted by the EU, plus additional standards in accordance with the Swedish Annual Accounts Act for Credit Institutions and Securities Companies, and the regulations and general guidelines issued by the Swedish Financial Supervisory Authority. The parent company's annual report is prepared in accordance with the Swedish Annual Accounts Act for Credit Institutions and Securities Companies, and the regulations and general guidelines issued by the Swedish Financial Supervisory Authority. International units must prepare accounts in accordance not only with the Group's rules, but also with the regulations that apply in the country where they are required to maintain accounting records.

#### Policy for products and services

According to the policy, the Handelsbanken Group's range of products must maintain a high level of quality. This means that the products' function, and their associated costs and risks, must meet customers' needs, characteristics and goals, as well as being presented in such a way that customers are able to make well-founded decisions. A decision-making procedure must be in place for the approval of new and materially changed products. Before a product is rolled out, it must be subject to product testing, and no new or materially changed product may be rolled out until the resources are in place to manage the risks associated with the product. The products must have established target markets and the strategy for distribution of products must be appropriate in relation to the target market. Procedures must exist for monitoring the product. to ensure that it remains suitable for the established target market.

#### Policy on measures against financial crime

The policy on measures against financial crime is based on applicable regulatory frameworks concerning money laundering, terrorist financing, effective international sanctions and rules regarding violations of such sanctions, as well as obligations relating to the prevention of fraud. The policy also addresses the low risk tolerance, as set by the Board, in the aforementioned areas. Handelsbanken must not participate in transactions of which the employees do not understand the implications, or which may be suspected of being linked to criminal activities. The Group's work method is based on having a good knowledge of its customers, and an understanding of its customers' business operations, as well as the purpose and nature of the business relationship. Customer due diligence must be performed and maintained for as long as the customer relationship exists. Handelsbanken must also monitor and follow decisions on sanctions.

## PRINCIPLES FOR REMUNERATION AT HANDELSBANKEN

The remuneration policy establishes the Bank's principles for remuneration to employees. In general, Handelsbanken has low tolerance of risk and holds the opinion that fixed remuneration contributes to healthy operations. This is, therefore, the main principle. The Bank's executive officers and employees who make decisions on credits or limits, or who work at the Bank's control functions, are paid fixed remuneration together with the possibility of further remuneration from the Oktogonen collective profit-sharing scheme. This also applies to employees who are assessed as having a material impact on the Bank's risk profile, called 'risk-takers' in the Bank.

The main principle of the remuneration policy is that remuneration is paid in the form of fixed

remuneration. However, the policy allows for variable remuneration to be paid. The Board decides on the total amount.

A detailed description of fixed and variable remuneration at Handelsbanken is given here. Other information concerning remuneration paid by the Bank in accordance with the current regulations is presented in note G8 on pages 152–157, and in the Bank's Remuneration Report which is available at handelsbanken.com. This note also provides information about amounts for salaries, pensions and other benefits, and loans to executive officers.

#### Fixed remuneration

The Bank takes a long-term view of its staff's employment. Remuneration for work performed is set individually for each employee, and is paid in the form of a fixed salary, customary salary benefits and pension.

The main principle is that salaries are set locally in salary reviews between the employee and his/her line manager. These principles have been applied for many years with great success. They mean that managers at all levels participate regularly in the salary process, and take responsibility for the Bank's salary policy and the growth in their own unit's staff costs.

Salaries are based on factors known in advance: the nature and level of difficulty of the work, competency and skills, work performance and results achieved, leadership, and being a cultural ambassador for the Bank.

In Sweden and certain other countries, the Bank is party to collective bargaining agreements on general terms and conditions of employment during the employment period and on terms and conditions of pensions after employees have reached retirement age. The aim of the Bank's policy on salaries is to increase the Bank's competitiveness and profitability, to enable the Bank to attract, recruit, retain and develop skilled staff, and to ensure good management succession planning. Good profitability and productivity performance at the Bank create the necessary conditions for salary growth for the Bank's employees.

#### Variable remuneration

The Oktogonen profit-sharing scheme covers all employees in the Handelsbanken Group. The provision is classified as variable remuneration and is based on profitability metrics linked to Handelsbanken's corporate goals being met and the Board's overall assessment regarding the Bank's performance. Disbursements are mainly made in cash to the employees, or alternatively to a pension plan, a savings plan or a combination of the two.

Performance-based variable remuneration is applied with great caution and to a very limited

extent. It is only offered to employees in the Capital Markets business area and in mutual fund and asset management operations. In these operations, performance-based variable remuneration may only be paid to employees at units whose profits derive from commissions or intermediary transactions that take place without the Bank being subject to credit risk, market risk or liquidity risk. One per cent of the Group's employees are eligible to receive performancebased variable remuneration. The total amount reserved for performance-based variable remuneration to employees in the Handelsbanken Group must not exceed 0.4 per cent of the Bank's common equity tier 1 capital during any given year. For 2022, a total of SEK 52m was allocated for performance-based variable remuneration, corresponding to approximately 0.5 per cent of total salaries and approximately 0.03 per cent of the Bank's common equity tier 1 capital.

Performance-based variable remuneration is based on Handelsbanken's factors for setting salaries and it must be designed so that it does not encourage unhealthy risk-taking. The financial result on which the performance-based variable remuneration is based is adjusted for risk and charged with the actual cost of the capital and liquidity required by the operations. Normally, performance-based variable remuneration is only paid in cash. In subsidiaries which run mutual fund operations and in Handelsbanken Wealth & Asset Management Ltd, the performance-based variable remuneration is entirely or partially paid out as mutual fund units.

The main rule for performance-based variable remuneration is that at least 40 per cent is to be deferred for at least four years. For particularly large amounts of performance-based variable remuneration, 60 per cent is deferred. Payment and the right of ownership to the variable remuneration do not accrue to the person with the entitlement until after the end of the deferment period. Deferred variable remuneration can be removed or reduced if losses, increased risks or increased expenses arise during the deferment period, or if payment is deemed to be unjustifiable in view of the Bank's financial situation. No employee may receive performance-based variable remuneration of more than 100 per cent of his/her fixed remuneration.

Handelsbanken complies with the Swedish Financial Supervisory Authority's regulations governing remuneration policies in credit institutions, investment firms and fund management companies, which include provisions for formulating and adopting remuneration policies. The heads of the areas concerned, as well as the Chief Risk Officer and Chief Compliance Officer, take part in the remuneration commit-

tee's preparation and assessment of the Board's remuneration policy and the Bank's remuneration system.

#### Remuneration to executive officers

The shareholders at the AGM decide on guidelines for remuneration to the Chief Executive Officer, Executive Vice Presidents and other executive officers.

The Board decides on remuneration to the officers who are subject to the AGM's remuneration guidelines, a total of 15 individuals (as of 31 December 2022). The Board also decides on remuneration to the Chief Audit Executive, among others.

Executive officers in Handelsbanken are Board members, the CEO, Executive Vice Presidents, the Chief Risk Officer, Chief Compliance Officer and other members of executive management.

The guidelines adopted by the annual general meeting on 23 March 2022 are presented below.

## Guidelines for remuneration to executive officers of Svenska Handelsbanken AB (publ)

These guidelines shall be applied to remuneration to the Group Chief Executive, members of Executive management, the Deputy Chief Executives, and the heads of Group Risk Control and Group Compliance (below referred to as "executive officers"). The guidelines shall also apply to any remuneration to members of the Board which is paid in addition to fees for assignment to the Board of the Bank.

The guidelines shall be applied to new agreements, and shall not affect remuneration previously decided for executive officers. The guidelines are not applicable to remuneration that is decided upon by the annual general meeting.

Handelsbanken's goal is to have higher profitability than the average of peer competitors in its home markets. This goal is mainly to be achieved by more satisfied customers and lower costs than its competitors

Handelsbanken's business strategy is presented in the Annual Report.

To contribute to the Bank's goal; remuneration must reflect a long-term view of employment at the Bank, and also be in keeping with the Bank's generally low risk tolerance.

## Principles for remuneration to employees of Handelsbanken

Handelsbanken's principles for remuneration to employees are long-established. In the policy for remuneration in the Handelsbanken Group, the Board has established that the Bank's remuneration system must be consistent with the Bank's business objectives and business culture, which are based on sound, sustainable operations.

In addition, the remuneration policy states that fixed remuneration is fit-for-purpose for sound, sustainable operations, and is therefore applied as a basic principle. Variable remuneration is applied with great caution. Remuneration for work performed is set individually for each employee, and is paid in the form of a fixed salary, pension allocation and customary salary benefits (which can take the form of a car allowance, housing associated with the position, disability insurance, household assistance services, etc.). Salaries are based on factors known in advance, such as those set out in the remuneration policy.

Taking into account the above approach, an employee's total remuneration must be on market terms and gender-neutral, enabling Handelsbanken to attract, recruit, retain and develop skilled employees, and ensuring good management succession.

#### Remuneration to executive officers

In the preparation of the Board's proposals for these guidelines, Handelsbanken's remuneration policy and the above principles for remuneration to employees have been taken into account; this contributes to the Bank's business strategy, long-term interests and sustainability:

- The aggregated total remuneration shall be on market terms.
- Remuneration is paid in the form of a fixed cash salary, pension provision and customary benefits.
- The executive officers in question are included in the Oktogonen profit-sharing scheme on the same terms as all employees of the Bank.
- The retirement age is normally 65. Pension benefits are defined contribution, may correspond to a maximum of 35 per cent of the annual fixed cash salary, and may be payable in addition to pension plans under collective agreements. Other salary benefits may per year in total correspond to a maximum of 35 per cent of the annual fixed salary.
- The period of notice on the part of an executive officer is six months, and on the part of Handelsbanken a maximum of twelve months. If the Bank terminates the employment contract later than five years after the person becomes one of the Bank's executive officers, the period of notice is a maximum of twenty-four months. No other termination benefits are paid. Other time periods may apply due to collective agreements or labour legislation.

Concerning employment conditions that are subject to non-Swedish regulations: with regard to pension benefits and other benefits, the relevant adjustments may be made to comply with

such mandatory regulations or fixed local practice. In doing this, the overall aims of these quidelines shall be fulfilled as far as possible.

#### Fees to members of the Board

Members of the Board who are elected by the general meeting shall in special circumstances be able to be compensated for services provided within their respective area of competence (including assignments to the board of another group company) which do not constitute services to the Board of the Bank. Such duties of service shall be handled in accordance with applicable internal rules and by due consideration of possible conflicts of interest. These services shall be compensated for by market-based remuneration. Information about any remuneration for such services shall be included in the annual report and the remuneration report.

#### Decision process

The Board has set up a remuneration committee. The committee's tasks include preparing the Board's proposals concerning guidelines for remuneration to executive officers. When the need for material changes arises – and at least every four years - the Board shall draw up a proposal for new guidelines and present it for a resolution at the annual general meeting. The guidelines shall apply until new guidelines have been adopted by the annual general meeting. The remuneration committee must also monitor and evaluate the application of the guidelines for remuneration for executive officers, as well as the prevailing structures and levels of remuneration at the Bank. All members of the remuneration committee are independent of the Bank and its management. The Group Chief Executive also attends the committee's meetings. although not when the committee is discussing and deciding upon remuneration-related matters that concern the Group Chief Executive herself.

#### Deviation from the guidelines

The Board may decide, temporarily, to deviate partly or wholly from the guidelines, if there are particular reasons for this in an individual case, and a deviation is necessary to satisfy the Bank's long-term interests and sustainability, or to ensure the Bank's financial viability. As stated above, preparing the Board's decisions in matters of remuneration is part of the remuneration committee's tasks, and this includes decisions regarding deviations from the guidelines.

## The Board's report on internal control regarding financial reporting

The presentation of Handelsbanken's internal control process for financial reporting is based on the framework developed by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and covers the following components: control environment, risk assessment, control activities, information and communication, and follow-up. The process was designed to ensure compliance with the Bank's principles for financial reporting and internal control, and to ensure that the financial reporting has been prepared pursuant to the law, applicable accounting standards, and other requirements related to listed companies.

#### Control environment

To ensure reliable financial reporting, Handels-banken's internal control process for financial reporting is based on the control environment. The control environment is fundamental to other components of the process and has been described earlier in the corporate governance report: i.e. organisational structure, division of responsibilities, guidelines and policy documents. An important aspect of the control environment is that decision-making channels, powers of authority and responsibilities are clearly defined and communicated, and that policy documents and guidelines established by the Board and CEO provide clear guidance and are complied with.

#### Risk assessment

Risk assessment aims to identify, manage and follow up risks with the potential to affect the financial reporting. Group Finance is responsible for performing a risk assessment at Group level, in order to identify units for which the need for internal control is assessed as of material significance to minimise the risk of material error in the financial reporting. Units that Group Finance deems must be covered by the process are required to draw up general documentation of their processes for internal control regarding financial reporting. This general documentation must describe the processes that generate the unit's most significant balance sheet and profit and loss items, risks, procedures for preparing the accounts, and identified control activities. The identified control activities are carried out each quarter to ensure that the financial reporting is correct, in all material respects.

The self-evaluations carried out annually within the parent company and subsidiaries are an essential part of the Bank's total risk assessment. Risks in the financial reporting are part of this total analysis. Other aspects of Handelsbanken's risk management are detailed in note G2 on pages 110–149 and in the Bank's Pillar 3 report.

#### Control activities

Various control activities are incorporated in the entire financial reporting process.

Group Finance bears the overall responsibility for the financial reporting, the consolidated accounts and consolidated financial reports, and for financial and administrative control systems. The unit's responsibilities also include the Group's liquidity, the internal bank, own funds, tax analysis and Group-wide reporting to public authorities.

Group Finance has the overall responsibility for ensuring that a fit-for-purpose process is in place for reporting on internal control regarding the financial reporting. For the units that Group Finance has deemed must be covered by the process for internal control regarding financial reporting, control activities are identified which are aimed at preventing, detecting and correcting errors and deviations in the financial reporting. Group Finance has established a number of financial control activities linked to the general ledger and the process of preparing the accounts, which all finance departments within the parent company and subsidiaries are required to carry out in conjunction with every quarterly closing of accounts. These include, for example, the reconciliation and verification of reported amounts, and analyses of income statements and balance sheets. In addition to financial control activities, units selected by Group Finance are responsible for identifying and evaluating control activities within business process and systems that have a substantial impact on the income statement and balance sheet, with the aim of minimising the risk of material error in the financial reporting. Heads of accounting and control at the respective units are responsible for ensuring that the control activities in the financial reporting for their unit are fit-for-purpose - i.e. that they are designed to prevent, detect and correct errors and deviations - and are in compliance with internal guidelines and instructions. At each quarterly closing of accounts, the units certify to Group Finance that the control activities have been carried out, and that their balance sheets and income statements are correct. Based on Group Finance's follow-up of the units' reports, the CFO reports the status of the internal control of financial reporting to the audit committee at each quarterly closing of accounts.

The CFO is responsible for setting up and maintaining a valuation committee. The committee's role is to support the decision-making processes for valuation and reporting matters. The committee deals with the valuation of financial assets and liabilities, including derivatives at fair value and also financial guarantees. The valuations refer to both own holdings and holdings on behalf of others. The committee must ensure that the valuation complies with external regulations, internal guidelines and current market practices.

High information security is a precondition for good internal control of financial reporting. Thus there are regulations and guidelines to ensure

availability, accuracy, confidentiality and traceability of information in the business systems.

#### Information and communication

The Bank has information and communication paths with the aim of achieving completeness and correctness in its financial reports. Group Finance must ensure that the staff concerned are aware of and have access to instructions of significance to the financial reporting. The Group's general accounting instructions and special procedures for producing financial reports, and the process for internal control regarding financial reporting, are communicated to the staff concerned via the Group's intranet. The system used for financial reporting encompasses the entire Group.

#### Follow-up

The respective accounting and financial departments at the Bank monitor and verify compliance with applicable rules in the form of internal steering documents which affect the financial reporting, as the responsibility for internal control is an integral part of the managerial responsibility.

If the Group does not meet its obligations under regulations, laws and other rules for operations that are subject to a licence, this could affect the Bank's financial reporting. Group Compliance is responsible for monitoring and controlling regulatory compliance with regard to the operations within the Bank that are subject to a licence. Group Compliance is described in more detail on pages 77 and 82.

Group Risk Control is responsible for identifying, checking and reporting risks of errors in the Bank's assumptions and assessments that form the basis of the Bank's financial reporting. Group Risk Control is described in more detail on pages 77 and 82.

Group Audit is assigned to examine internal governance and control, and to evaluate the reliability of the Group's financial reporting. Group Audit is described in more detail on pages 77 and 82

As part of the quality control work for financial reporting, the Board has set up an audit committee. Among other responsibilities, the committee processes crucial accounting matters and the financial reports produced by the Bank. The committee also supervises the effectiveness of the internal control, internal audit and the process for internal control regarding the financial reporting. The audit committee is described in more detail on page 77.

The Group's information and communication paths are monitored continually to ensure that they are fit-for-purpose for the financial reporting.

# Auditor's report

Unofficial translation

To the general meeting of the shareholders of Svenska Handelsbanken AB (publ), corporate identity number 502007-7862

## Report on the annual accounts and consolidated accounts

#### Opinions

We have audited the annual accounts and consolidated accounts of Svenska Handelsbanken AB (publ) for the year 2022 except for the sustainability report on pages 36-73. The annual accounts and consolidated accounts of the company are included on pages 6-258 in this document.

In our opinion, the annual accounts have been prepared in accordance with the Annual Accounts Act for Credit Institutions and Securities Companies and present fairly, in all material respects, the financial position of parent company and the group as of December 31, 2022 and its financial performance and cash flow for the year then ended in accordance with the Annual Accounts Act for Credit Institutions and Securities Companies. The consolidated accounts have been prepared in accordance with the Annual Accounts Act for Credit Institutions and Securities Companies and present fairly, in all material respects, the financial position of the group as of December 31, 2022 and their financial performance and cash flow for the year then ended in accordance with International Financial Reporting Standards (IFRS), as adopted by the EU, and the Annual Accounts Act for Credit Institutions and Securities Companies.

A corporate governance statement has been prepared. The statutory administration report and the corporate governance statement are consistent with the other parts of the annual accounts and consolidated accounts, and the corporate governance statement is in accordance with

the Annual Accounts Act for Credit Institutions and Securities Companies.

We therefore recommend that the general meeting of shareholders adopts the income statement and balance sheet for the parent company and the group.

Our opinions in this report on the annual accounts and consolidated accounts are consistent with the content of the additional report that has been submitted to the parent company's audit committee in accordance with the Audit Regulation (537/2014) Article 11.

#### **Basis for Opinions**

We conducted our audit in accordance with International Standards on Auditing (ISA) and generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the Auditor's Responsibilities section. We are independent of the parent company and the group in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements. This includes that, based on the best of our knowledge and belief, no prohibited services referred to in the Audit Regulation (537/2014) Article 5.1 have been provided to the audited company or, where applicable, its parent company or its controlled companies within the EU.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

#### **KEY AUDIT MATTERS**

Key audit matters of the audit are those matters that, in our professional judgment, were of most significance in our audit of the annual accounts and consolidated accounts of the current period. These matters were addressed in the context of our audit of, and in forming our opinion thereon, the annual accounts and consolidated accounts as a whole, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

#### Provision for expected credit losses

Detailed information and description of the area is presented in the annual accounts and consolidated accounts. Credit risk exposure and how it is handled is described in note G2 on page 113. The Group's reported expected credit losses are specified in note G10. Information concerning the parent company is presented in note P2 and P10. Regarding the area relevant accounting policies for the group, these can be found in note G1, section 10 on page 102 and in note G1, section 22 on page 109. Note P1 shows that the accounting principles of the parent company concerning credit granting and provision for expected credit loss corresponds with the accounting principles of the group.

#### Description of audit matter

As of 31 December, 2022 lending to the public amounts to 2 315 818 (637 721) SEK m for the group (parent) which amount to 67 (27) % of total assets. The total credit risk exposure, including off-balance commitments, amounts to 3 709 066 (2 999 427) SEK m.

Provision for expected credit losses on lending to the public amounts to 2 454 (1 542) SEK m for which 1 197 (608) SEK m is based on model based calculations (Stages 1 and 2) and 1 257 (934) SEK m is based on manual calculations (Stage 3). The Bank performs adjustments on the model-based calculations in Stages 1 and 2 to take into consideration factors which is not accounted for in the model.

Expected credit losses shall be measured in a way that reflects an unbiased and probably weighted amount that is determined by evaluating a range of possible outcomes and is based on past events, current conditions and forecasts of economic conditions. To make the provision the Bank is required to make estimates and assumptions regarding for example criteria to identify a significant increase in credit risk and methods to calculate expected credit losses. Due to the complexity of the calculation and the fact that it requires the Bank to make estimates and assumptions with a significant impact on reported amounts, provisioning for expected credit losses is considered a key audit matter.

#### How this matter has been considered in the audit

We have evaluated whether the Bank's assessment of probability of default, loss given default, exposure at default and expected credit loss as well as significant increase in credit risk is in accordance with IFRS 9.

We have obtained an understanding of and tested the design of key controls in the credit process including credit decision, credit review, rating classification as well as identifying and determining credits deemed to be in default. We have also tested controls related to input to model data and general IT controls including handling of authorization for these systems. Our assessment is that we can have a control-based approach in our audit.

Furthermore, we have on a sample basis challenged the Bank's initial and current credit rating. We have tested that data used from supporting systems used in the model is complete and accurate.

We have reviewed and assessed the model including assumptions and parameters and checked the functionality of the model. We have also reviewed and assessed the outcome of the model validations that have been carried out and assessed the reasonableness of the macroeconomic data used. We have assessed the reasonableness of the manual adjustments, including the expert-based provision, performed by the Bank. In our audit, we used our internal model specialists to support us when performing the audit procedures.

We have also reviewed that the disclosures in the financial reports regarding credit risk are appropriate.

#### Fair value measurement of financial instrument with no market prices available

Detailed information and description of the key audit matter is provided in the annual accounts and consolidated accounts. Financial instruments measured at fair value are described in note G42 for the group and P37 for the parent company. Relevant accounting principles for the group are described in note G1, section 9 on page 101. Note P1 shows that the parent company's accounting principles for financial instruments measured at fair value is consistent with the group's accounting principles.

#### Description of audit matter

The Bank has financial instruments where market price is missing, thus fair value is determined using valuation models based on market data. These financial instruments are categorized as level 2 under IFRS fair value valuation hierarchy. Svenska Handelsbanken has also, to some extent, financial instruments whose valuation to fair value is determined using valuation models for which the value is affected by the input data that cannot be verified by external market data. These financial instruments are categorized as level 3 under IFRS fair value valuation hierarchy.

The group (parent company) has financial assets and financial liabilities in level 2 of 38 179 (71 081) SEK m and 31 410 (38 608) SEK m respectively. Financial assets and liabilities in level 3 amouns to 737 (716) SEK m and 564 (564) SEK m respectively.

The main part of the financial instruments in level 2 is made out of derivative contracts, among them interest rate swaps and various types of linear currency derivatives, and business bonds. Corporate bonds and derivative contracts in level 2 are valued by valuation models based on market rates and other market prices. Financial instruments in level 3 primarily consist of unlisted shares in joint ventures, investments in the insurance business as well as certain derivative contracts valued by non-observable data. Due to the complexity of calculations and the fact that the Bank has to make assessments with a significant impact on reported amounts, valuation of financial instruments with no market prices is considered to be a key audit matter.

#### How this matter has been considered in the audit

We have assessed whether the Banks method for valuating financial instruments with no market prices available including the classification in the valuation hierarchy is in accordance with IFRS 13.

We have tested the key controls in the valuation process, including the bank's assessment and approving of assumptions and methods used in model-based calculation, control of data quality as well as handling of change regarding internal valuation models. We have also tested the general IT-controls including the handling of authorization regarding these systems. Our assessment is that these key controls are designed, implemented and operatively effective and hence we have determined that we can rely on these key controls in our audit.

Further, we have evaluated the methods and assumptions made when valuating financial instruments with no market prices available. We have compared the valuation models with valuation guidelines and appropriate industry practice. We have compared assumptions and price sources and examined any significant deviations. We have also checked the accuracy of the estimations by conducting sample tests and performing our own independent valuations. We have engaged our internal valuation specialists to support us when performing our audit procedures.

We have also assessed the disclosures in the financial statements regarding valuation of financial instruments to fair value are appropriate.

#### Other information than annual accounts and consolidated accounts

This document also contains other information than the annual accounts and consolidated accounts and is found on pages 1–5, 36–73 and 265–267. The remuneration report for 2022 is also other information. The Board of Directors and the Managing Director are responsible for this other information.

Our opinion on the annual accounts and consolidated accounts does not cover this other information and we do not express any form of assurance conclusion regarding this other information.

In connection with our audit of the annual accounts and consolidated accounts, our responsibility is to read the information identified above and consider whether the information is materially inconsistent with the annual accounts and consolidated accounts. In this procedure we also take into account our knowledge otherwise obtained in the audit and assess whether the information otherwise appears to be materially misstated.

If we, based on the work performed concerning this information, conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the Board of Director's and the Managing Director

The Board of Directors and the Managing Director are responsible for the preparation of the annual accounts and consolidated accounts and that they give a fair presentation in accordance with the Annual Accounts Act Act for Credit Institutions and Securities Companies and, concerning the consolidated accounts, in accordance with IFRS as adopted by the EU. The Board of Directors and the Managing Director are also responsible for such internal control as they determine is necessary to enable the preparation of annual accounts and consolidated accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts and consolidated accounts, The Board of Directors and the Managing Director are responsible for the assessment of the company's and the group's ability to continue as a going concern. They disclose, as applicable, matters related to going concern and using the going concern basis of accounting. The going concern basis of accounting is however not applied if the Board of Directors and the Managing Director intend to liquidate the company, to cease operations, or has no realistic alternative but to do so.

The Audit Committee shall, without prejudice to the Board of Director's responsibilities and tasks in general, among other things oversee the company's financial reporting process.

#### Auditor's responsibility

Our objectives are to obtain reasonable assurance about whether the annual accounts and consolidated accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and generally accepted auditing standards in Sweden will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts and consolidated accounts.

### Report on the annual accounts and consolidated accounts, cont.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual
  accounts and consolidated accounts, whether due to fraud or error,
  design and perform audit procedures responsive to those risks, and
  obtain audit evidence that is sufficient and appropriate to provide a basis
  for our opinions. The risk of not detecting a material misstatement
  resulting from fraud is higher than for one resulting from error, as fraud
  may involve collusion, forgery, intentional omissions, misrepresentations,
  or the override of internal control.
- Obtain an understanding of the company's internal control relevant to our audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors and the Managing Director.
- Conclude on the appropriateness of the Board of Directors' and the Managing Director's use of the going concern basis of accounting in preparing the annual accounts and consolidated accounts. We also draw a conclusion, based on the audit evidence obtained, as to whether any material uncertainty exists related to events or conditions that may cast significant doubt on the company's and the group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the annual accounts and consolidated accounts or, if such disclosures are inadequate, to modify our opinion about the annual accounts and consolidated accounts. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause a company and a group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the annual accounts and consolidated accounts, including the disclosures, and whether the annual accounts and consolidated accounts represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated accounts. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our opinions.

We must inform the Board of Directors of, among other matters, the planned scope and timing of the audit. We must also inform of significant audit findings during our audit, including any significant deficiencies in internal control that we identified.

We must also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the annual accounts and consolidated accounts, including the most important assessed risks for material misstatement, and are therefore the key audit matters. We describe these matters in the auditor's report unless law or regulation precludes disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in the auditor's report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on other legal and regulatory requirements

# The auditor's audit of the administration of the company and the proposed appropriations of the company's profit or loss *Opinions*

In addition to our audit of the annual accounts and consolidated accounts, we have also audited the administration of the Board of Directors and the Managing Director of Svenska Handelsbanken AB (publ) for the year 2022 and the proposed appropriations of the company's profit or loss.

We recommend to the general meeting of shareholders that the profit be appropriated in accordance with the proposal in the statutory administration report and that the members of the Board of Director's and the Managing Director be discharged from liability for the financial year.

#### **Basis for Opinions**

We conducted the audit in accordance with generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the Auditor's Responsibilities section. We are independent of the parent company and the group in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

#### Responsibilities of the Board of Directors and the Managing Director

The Board of Directors is responsible for the proposal for appropriations of the company's profit or loss. At the proposal of a dividend, this includes an assessment of whether the dividend is justifiable considering the requirements which the company's and the group's type of operations, size and risks place on the size of the parent company's and the group' equity, consolidation requirements, liquidity and position in general.

The Board of Directors is responsible for the company's organization and the administration of the company's affairs. This includes among other things continuous assessment of the company's and the group's financial situation and ensuring that the company's organization is designed so that the accounting, management of assets and the company's financial affairs otherwise are controlled in a reassuring manner. The Managing Director shall manage the ongoing administration according to the Board of Directors' guidelines and instructions and among other matters take measures that are necessary to fulfill the company's accounting in accordance with law and handle the management of assets in a reassuring manner.

#### Auditor's responsibility

Our objective concerning the audit of the administration, and thereby our opinion about discharge from liability, is to obtain audit evidence to assess with a reasonable degree of assurance whether any member of the Board of Directors or the Managing Director in any material respect:

- has undertaken any action or been guilty of any omission which can give rise to liability to the company, or
- in any other way has acted in contravention of the Companies Act, the Banking and Financing Business Act, the Annual Accounts Act for Credit Institutions and Securities Companies or the Articles of Association.

Our objective concerning the audit of the proposed appropriations of the company's profit or loss, and thereby our opinion about this, is to assess with reasonable degree of assurance whether the proposal is in accordance with the Companies Act.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with generally accepted auditing standards in Sweden will always detect actions or omissions that can give rise to liability to the company, or that the proposed appropriations of the company's profit or loss are not in accordance with the Companies Act.

As part of an audit in accordance with generally accepted auditing standards in Sweden, we exercise professional judgment and maintain professional skepticism throughout the audit. The examination of the administration and the proposed appropriations of the company's profit or loss is based primarily on the audit of the accounts. Additional audit procedures performed are based on our professional judgment with starting point in risk and materiality. This means that we focus the examination on such actions, areas and relationships that are material for the operations and where deviations and violations would have particular importance for the company's situation. We examine and test decisions undertaken, support for decisions, actions taken and other circumstances that are relevant to our opinion concerning discharge from liability. As a basis for our opinion on the Board of Directors' proposed appropriations of the company's profit or loss we examined the Board of Directors' reasoned statement and a selection of supporting evidence in order to be able to assess whether the proposal is in accordance with the Companies Act.

#### The auditor's examination of the ESEF report Opinion

In addition to our audit of the annual accounts and consolidated accounts, we have also examined that the Board of Directors and the Managing Director have prepared the annual accounts and consolidated accounts in a format that enables uniform electronic reporting (the Esef report) pursuant to Chapter 16, Section 4(a) of the Swedish Securities Market Act (2007:528) for Svenska Handelsbanken AB (publ) for the financial year 2022.

Our examination and our opinion relate only to the statutory requirements. In our opinion, the Esef report has been prepared in a format that, in all material respects, enables uniform electronic reporting.

#### Basis for Opinion

We have performed the examination in accordance with FAR's recommendation RevR 18 Examination of the ESEF report. Our responsibility under this recommendation is described in more detail in the Auditors' responsibility section. We are independent of Svenska Handelsbanken AB (publ) in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Responsibilities of the Board of Directors and the Managing Director

The Board of Directors and the Managing Director are responsible for the preparation of the Esef report in accordance with the Chapter 16, Section 4(a) of the Swedish Securities Market Act (2007:528), and for such internal control that the Board of Directors and the Managing Director determine is necessary to prepare the Esef report without material misstatements, whether due to fraud or error.

#### Auditor's responsibility

Our responsibility is to obtain reasonable assurance whether the Esef report is in all material respects prepared in a format that meets the requirements of Chapter 16, Section 4(a) of the Swedish Securities Market Act (2007:528), based on the procedures performed.

RevR 18 requires us to plan and execute procedures to achieve reasonable assurance that the Esef report is prepared in a format that meets these requirements.

Reasonable assurance is a high level of assurance, but it is not a guarantee that an engagement carried out according to RevR 18 and generally accepted auditing standards in Sweden will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Esef report.

The audit firms appliy International Standard on Quality Management 1, which requires the company to design, implement and manage a quality management system including documented policies and procedures regarding compliance with professional ethical requirements, professional standards and legal and regulatory requirements.

The examination involves obtaining evidence, through various procedures, that the Esef report has been prepared in a format that enables uniform electronic reporting of the annual and consolidated accounts. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement in the report, whether due to fraud or error. In carrying out this risk assessment, and in order to design audit procedures that are appropriate in the circumstances, the auditor considers those elements of internal control that are relevant to the preparation of the Esef report by the Board of Directors and the Managing Director, but not for the purpose of expressing an opinion on the effectiveness of those internal controls. The examination also includes an evalua-

tion of the appropriateness and reasonableness of assumptions made by the Board of Directors and the Managing Director.

The procedures mainly include a validation that the Esef report has been prepared in a valid XHTML format and a reconciliation of the Esef report with the audited annual accounts and consolidated accounts.

Furthermore, the procedures also include an assessment of whether the consolidated statement of financial performance, financial position, changes in equity, cash flow and disclosures in the Esef report has been marked with iXBRL in accordance with what follows from the Esef regulation.

#### Auditor's report on the statutory sustainability report

It is the board of directors who is responsible for the statutory sustainability report [on pages 36-73] and that it has been prepared in accordance with the Annual Accounts Act.

Our examination has been conducted in accordance with FAR's auditing standard RevR 12 The auditor's opinion regarding the statutory sustainability report. This means that our examination of the statutory sustainability report is substantially different and less in scope than an audit conducted in accordance with International Standards on Auditing and generally accepted auditing standards in Sweden. We believe that the examination has provided us with sufficient basis for our opinion.

A statutory sustainability report has been prepared.

PricewaterhouseCoopers AB, Torsgatan 21, 113 97 Stockhom, was appointed auditor of Svenska Handelsbanken AB by the general meeting of the shareholders on March 23, 2022 and has been the company's auditor since March 29, 2017.
